EXPERIENCE

Full-StackDeveloper

March2024-June2024

Zidio Developement

Remote

- Contributed to the development and enhancement of the company's ERP system as a Junior Full Stack Developer Intern. Leveraged JavaScript, and backend technologies like MongoDB to implement new features and functionalities.
- Collaborated with senior developers to troubleshoot issues, optimize system performance, and ensure seamless user experience.

Vaishnavi Solution

June 2024-Sept 2024

Remote

- As a Full Stack Web Developer at Vaishnavi Solution, I contributed to a range of projects, including developing and maintaining CMS platforms and handling digital marketing projects. I applied my skills in web development, ensuring timely delivery of projects and providing solutions that optimized performance and user experience. My experience spans building scalable web applications and collaborating with teams to achieve project goals efficiently.

PROJECTS

Snacks Here(Food delivery): Developed a modern web application akin to Swiggy, a popular food delivery platform. Leveraged a robust tech stack to engineer seamless user experiences, efficient order management systems, and secure payment gateways.

File Sharing: Created an efficient online file sharing and uploading platform for seamless file management and secure sharing with techstack nextjs, firebase, clerkjs and TailwindCss.

Social Spot: A full-stack social media web application where users can create, edit, and delete their posts. They can also share their posts with others.

LEADERSHIP AND ACTIVITIES

Regularly write and publish blogs and posts showcasing my skills and projects, sharing insights, tutorials, and experiences to engage with the tech community and demonstrate expertise in software development.

Active member of Tuskers Club, a university speaking club, enhancing public speaking and leadership skills through regular participation and events.
